### ABOUT ME

I consider myself a responsible, modest, insightful person with a strategic vision who achieves everything I set out to do.

I have a great facility to learn new knowledge, so I am a quick help anywhere. I'm also always motivated to learn new things and I always try to improve my own skills.

### COMPETENCIES

I have experience with many languages, but I specialize in Typescript and Python.

I have developed both frontend and backend. I have used both SQL and NOSQL databases.

I have worked with Docker and CI/CD. I also have knowledge of the different ways to test a product to ensure its quality.

### LANGUAGES

Spanish - Native  
Catalan - Native  
Inglés - Advanced

### TRAINING AND EDUCATION

#### VIU - Valencia International University

Master's Degree in Artificial Intelligence  
2022 - 2023

#### La Salle BCN, Ramon Llull University

Computer Engineering  
2018 - 2021

### WORK EXPERIENCE

#### Shopfully - QA Automation Engineer | 2022 - Now

- Developing in Typescript with Node.js.
- Managing my own projects for quality assurance, all dockerized and running on CI.
- Creating different automation projects, testing different products:
  - Browser E2E tests with playwright.
  - Android and IOS E2E tests with WebdriverIO using Appium
  - API testing using Axios.
  - Unit testing with Jest.
- Creation of an API to be able to retrieve trackings for testing purposes.
- Teaching others colleagues

#### Tiendeo - PHP Developer | 2021 - 2022

- Creation of bots in PHP Symfony.
- Experience as a crawler, handling requests to webs and api's, and experimenting with different methods of sending information such as JSON.
- Experience developing with PHP symfony framework, bots managed with Doquer and Jenkins.
